## LIVING IN LUXURY

I enjoyed Living in Luxury [November 2008 At Home] last month. I actually might see if I can get my hands on the “Look” chair by John Hutton for Holly Hunt, Ltd. It would look perfect in my living room! I also could relate to Laura Barnett Sawchyn and her mother’s clear plastic couch cover. My mother did the same thing and it drove me crazy. Why bother having nice pieces if you can’t enjoy them? A great piece of furniture is no doubt an investment, but totally worth it. I still have the same dinning room table I bought when I got married. I’ll have it forever!
